

Paleoclimate Proxy Data for Poverty Point Period (3650-3050 BP)

Lower Mississippi Valley Environmental Context

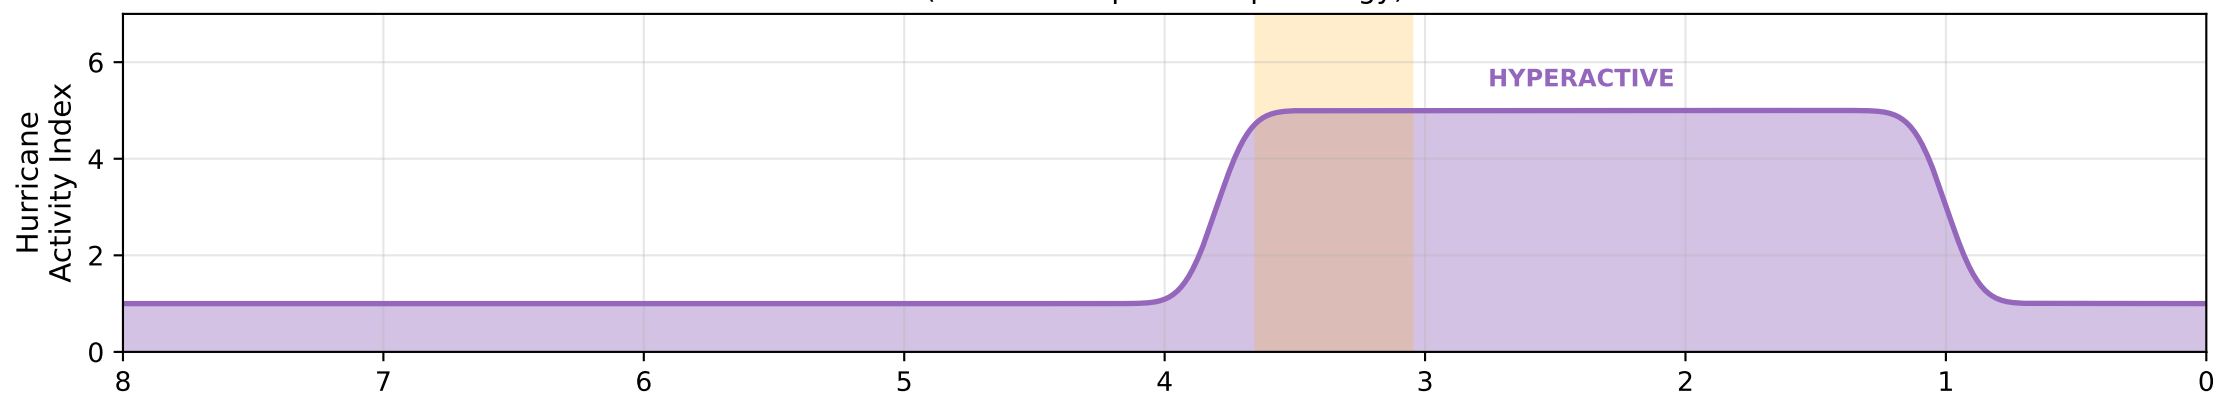

A. Regional Temperature Reconstruction
(Temperature 12k Database, Kaufman et al. 2020)

B. Midwest Hydroclimate Reconstruction
(Salonen et al. 2025, pollen-based)

C. Gulf Coast Hurricane Activity
(Liu & Fearn paleotempestology)

D. Composite Environmental Uncertainty Index
(Higher values = more variable/unpredictable conditions)
